

国際学会発表

a) シンポジウム

1. Nitta T. When and how to apply concomitant or stand-alone surgical ablation. The 15th International Symposium on Progress in Clinical Pacing. (Rome, Italy). 2012.12
2. Nitta T. Surgical Tools and Energy Sources Available. 15th International Symposium on Progress in Clinical Pacing. (Rome, Italy). 2012.12
3. Nitta T. The forum on: Surgical options in arrhythmias treatment Session I: Atrial fibrillation. The 15th International Symposium on Progress in Clinical Pacing. (Rome, Italy). 2012.12
4. Nitta T, *et al.* (1st out of 8): Surgical Ablation of Non-ischemic VT. The 18th Cardiostim. (Nice, France). 2012.6
5. Nitta T. Video session: Technique does matter – AF surgery: How to prevent post-op atrial tachycardia? The 3rd CDI International Heart Symposium. (Krabi, Thailand). 2012.5
6. Nitta T, *et al.* (1st out of 9): Surgical Mapping and Ablation of Non-ischemic VT. The 14th World Society of Arrhythmias International Cardiac Pacing and Electrophysiology. (Athens, Greece). 2011.12
7. Nitta T. When and Why an ICD: Brugada. The 14th World Society of Arrhythmias International Cardiac Pacing and Electrophysiology. (Athens, Greece). 2011.12
8. Nitta T. Global Approach & Sudden Cardiac Arrest Prevention. Approaches from Around the World: Japan. The 31st Heart Rhythm Society. (Denver, CO, USA). 2010.5
9. Nitta T, *et al.* (1st out of 10): New Insight from Human Epicardial Mapping. The 1st Asia-pacific Heart Rhythm Society. (Singapore). 2008.11

b) パネルディスカッション

1. Nitta T. Sudden death prevention worldwide: straggling against cultural or financial constraints in Japan. The 14th International Symposium on Progress in Clinical Pacing. (Rome, Italy). 2010.12
2. Nitta T. Electrical Storm: Role of Surgery. The 14th International Symposium on Progress in Clinical Pacing. (Rome, Italy). 2010.12
3. Nitta T. Adherence to the International Guidelines: in Japan. The 14th International Symposium on Progress in Clinical Pacing. (Rome, Italy). 2010.12
4. Nitta T, *et al.* (1st out of 10): Intraoperative verification of conduction block in AF surgery. The 1st Asia-pacific Heart Rhythm Society. (Singapore). 2008.11
5. Nitta T, *et al.* (1st out of 10): Minimally Invasive Surgery for Lone AF – Benefits and Limitations. The 1st Asia-pacific Heart Rhythm Society. (Singapore). 2008.11
6. Nitta T. What is minimally invasive AFib surgery? How the minimally invasive AF surgery should be. The 5th ISMICS (International Society for Minimally Invasive Cardiothoracic Surgery) (San Francisco, CA, USA) 2006.6
7. Nitta T. AF Surgery is indicated after Two Procedures of Catheter Ablation for AF. The 1st Asia-Pacific Atrial Fibrillation Symposium. (Seoul, Korea). 2005.12

c) デイバイトセッション

1. Nitta T. Technical aspect of Maze: Difficult cases presentation and discussion. High technology and update on AF ablation and surgery. (Bangkok, Thailand) 2012.9

d) 一般演題

1. Nitta T, *et al.* (1st out of 8): Radiofrequency Ablation does not Increase the Incidence of Atrial Tachycardia after the Maze Procedure: Findings from the Postoperative Electrophysiological Study. The 92nd Annual Meeting of the American Association for Thoracic Surgery. (San Francisco, CA, USA) 2012.4
2. Nitta T, *et al.* (1st out of 10): Surgery for Non-ischemic Ventricular Tachycardia: Role of Intraoperative Electro-anatomical Mapping. The 84th AHA (Orlando, FL, USA) 2011.11
3. Nitta T. (1st out of 8): Thoracoscopic and Map-guided Surgery for Atrial Tachycardia. The 47th Society of Thoracic Surgeons. (San Diego, CA, USA) 2011.1
4. Nitta T, *et al.* (1st out of 9): Use of Bipolar Radiofrequency Ablation Devices Does Not Undermine the Efficacy of Surgery for AF. 28th HRS. (Denver, CO, USA). 2007.5
5. Nitta T, *et al.* (1st out of 11). Atrial Fibrillation Associated with an Atrial Septal Defect: The Mechanism and Optimal Lesion Set for Ablation The 27th Heart Rhythm Society. (Boston, MA, USA). 2006.5
6. Nitta T, *et al.* (1st out of 8). Temporal Constancy of Electrophysiologic Characteristics in Permanent Atrial Fibrillation. The 77th AHA. (New Orleans, LA, USA). 2004.11
7. Nitta T, *et al.* (1st out of 7). Intraoperative mapping as a guide to determine the optimal procedure for AF. The 25th NASPE. (San Francisco, CA, USA). 2004.5
8. Nitta T, *et al.* (1st out of 9). Map-guided Surgery for Atrial Fibrillation. The 84th American Association for Thoracic Surgery. (Toronto, ON, Canada). 2004.4
9. Nitta T, *et al.* (1st out of 8). Concordant and Rapid Atrial Activation After the Radial Procedure Restores Sufficient Left Atrial Transport Function and Prevents Thromboembolism. The 75th AHA. (Chicago, IL, USA). 2002.11
10. Nitta T, Yamauchi H, Ohkubo N, Ishii Y, Tanaka S.A Pitfall of Surgery for Atrial Fibrillation: Partial Atrioventricular Septal Defect. The 38th Society of Thoracic Surgeons. (Fort Lauderdale, FL, USA).2002.1
11. Nitta T, *et al.* (1st out of 9). Radial Procedure Restores Sufficient Atrial Contraction and Prevents Thromboembolism. The 73rd AHA. (New Orleans, LA, USA). 2000.11
12. Nitta T, *et al.*(1st out of 9). Focal Activation Underlying Permanent Atrial Fibrillation in Patients with Mitral Valve Disease. The 73th AHA. (New Orleans, LA, USA). 2000.11
13. Nitta T, *et al.* (1st out of 10). Focal and Reentrant Mechanisms Underlie Permanent Atrial Fibrillation in Patients with Mitral Valve Disease. The 72nd AHA. (Atlanta, GA, USA). 1999.11
14. Nitta T, *et al.* (1st out of 8). Initial Experience with the Radial Incision Approach for Atrial Fibrillation.35.The Society of Thoracic Surgeons. (San Antonio, TX, USA). 1999.1
15. Nitta T, *et al.*(1st out of 6). Radial Approach for Atrial Fibrillation. The 35th Society of Thoracic Surgeons. (San Antonio, TX, USA). 1999.1
16. Nitta T, *et al.* (1st out of 10) Initial Experience of Radial Approach: A New Concept in Surgical Treatment for Atrial Fibrillation. The 71st AHA. (Dallas, TX, USA). 1998.11
17. Nitta T, Schuessler RB, Rokkas CK, Branham BH, Boineau JP. Cryoablation of Central Common Pathway Guided by Return Cycle Mapping After Entrainment of Ventricular Tachycardia. The 71st AHA. (Dallas, TX, USA). 1998.11
18. Nitta T, *et al.* (1st out of 8). Radial Approach: A New Concept in Surgical Treatment for Atrial Fibrillation. The 34th Society of Thoracic Surgeons. (New Orleans, LA, USA). 1998.1
19. Nitta T, Schuessler RB, Lee R, Watanabe H, Boineau JP. Repolarization dynamics assessed by activation-recovery interval mapping. The 70th AHA. (Orlando, FL, USA). 1997.11

20. Nitta T, *et al.* (1st out of 7). Wavelength and inhomogeneity of conduction in patients with isolated mitral valve disease and atrial fibrillation. The 18th NASPE. (New Orleans, LA, USA). 1997.5
21. Nitta T, *et al.* (1st out of 6): Role of Intraoperative Mapping During Closed Heart Maze Procedure. The 69th AHA. (New Orleans, LA, USA). 1996.11
22. Nitta T, *et al.* (1st out of 7): Distribution Mapping of the Time Intervals After Entrainment: A New Mapping Method in Ventricular Tachycardia Surgery. The 10th Cardiotim. (Nice, France). 1996.6
23. Nitta T, *et al.* (1st out of 7): Are the right atrial incisions of the maze Procedure necessary to cure atrial fibrillation in patients with isolated mitral valve disease? The 10th Cardiotim. (Nice, France). 1996.6
24. Nitta T, *et al.* (1st out of 7): Distribution Mapping of the Time Intervals After Entrainment: A New Mapping Method in Ventricular Tachycardia Surgery. The 17th NASPE. (Seattle, WA, USA). 1996.5
25. Nitta T, *et al.* (1st out of 8): Distribution mapping of the time intervals after entrainment of ventricular tachycardia: A new method for localization of the central common pathway. The 66th AHA. (Atlanta, GA, USA). 1993.11
26. Nitta T, *et al.* (1st out of 8). Distribution mapping of the time intervals after entrainment of ventricular tachycardia. The 14th NASPE. (San Diego, CA, USA). 1993.5
27. Morota T, Takamoto S, Yamamoto T, Nawata T, Kawata M. One-stage repair of total descending aorta for extended pathologies. 8th Annual International Symposium on Advances in Understanding Aortic diseases, 2007
28. Morota T, Takamoto S, Motomura N, Ono M. Management of prosthetic graft infection: early and mid-term results of the use of cryopreserved allograft for aortic infection. 5th Japan-Korea Joint Meeting for Vascular Surgery, 2007
29. Morota T, Takamoto S, Kotsuka Y, Ono M, Shibata K. One-stage repair of total descending aorta for extended pathologies. 17th Annual Meeting of The World Society of Cardio-Thoracic Surgeons, 2004
30. Morota T, Takamoto S, Miyairi T, Kubota H, Ono M, Suematsu Y, Motomura N, Kotsuka Y. One-stage repair of total descending aorta for extended pathologies. 10th Annual Meeting of The Asian Society for Cardiovascular Surgery, 2002
31. Morota T, Kawata T, Burfeind WR, Lin C, Huang C, Duhaylongsod FG. Extended atrioventricular node (AVN) block with surgeon-actuated pacing for MIDCAB: The concept of intermittent cardiac arrest. 1st Annual Meeting of The International Society for Minimally Invasive Cardiac Surgery, 1998
32. Morota T, Kawata T, Burfeind WR, Huang C, Duhaylongsod FG. Near infrared catheter-guided thoracoscopic harvest of the internal thoracic artery. 1st Annual Meeting of The International Society for Minimally Invasive Cardiac Surgery, 1998
33. Morota T, Ando M, Okita Y, Nakayama Y, Matsukawa R, Yamaki F, Takamoto S. Surgical results of pararenal abdominal aortic aneurysm. 2nd Annual Meeting of The Asian Vascular Society, 1996
